PRECONTRACT APPROVAL RECORD (PART TWO)		CONTRACT
PERKIN-EIMER CORP.		

The services and equipment being procured by this Contract No. CH-900  
 T. O. #7 are in furtherance of the \_\_\_\_\_  
 Program(s), the nature of which cannot be publicly disclosed for security rea-  
 sons. The Contracting Officer therefore determines that this procurement must  
 be accomplished by negotiations pursuant to the authority of Section 3(a) of  
 PL 81-110 and Class Determination and Finding, OXC 2122, signed by the DDCI on  
 15 October 1961.

Certification of funds for this contract will be handled under the pro-  
 cedure approved by the Director of Central Intelligence on 15 December 1956  
 which, in effect, results in all covert expenses involving issuance of Treasury  
 Checks being accumulated in a separate account within the Finance Division. The  
 amounts in this account will be periodically scheduled for certification of the  
 vouchers by the Director. This procedure eliminates the necessity for a sepa-  
 rate certification of authority under Section 8(b) of Public Law 110, 81st Con-  
 gress (formerly 10(b) - see 85-507 dated 7/7/58) for each contract.

The following comments describe the procurement hereby effected, the  
 terms and provisions generally of this contract/amendment, and a resume of  
 major issues negotiated:

CONTRACTOR'S RELEASE

Contract No. CH-900 Task 7

Pursuant to the terms of Contract No. CH-900 Task 7 and in consideration of the sum of ONE HUNDRED AND FIFTY-TWO THOUSAND, ONE HUNDRED AND FIVE AND 00/100 Dollars (\$ 152,105.00) which has been or is to be paid under the said contract to THE PERKIN-ELMER CORPORATION, MAIN AVENUE, NORWALK, CONNECTICUT, (hereinafter called the Contractor) or its assignees, if any, the Contractor, upon payment of the said sum by the UNITED STATES OF AMERICA (hereinafter called the Government), does remise, release, and discharge the Government, its officers, agents, and employees, of and from all liabilities, obligations, claims, and demands whatsoever under or arising from the said contract, except:

1. Specified claims in stated amounts or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor, as follows:

NONE

Claims, together with reasonable expenses incidental thereto, based upon the liabilities of the Contractor to third parties arising out of the performance of the said contract, which are not known to the Contractor on the date of the execution of this release and of which the Contractor gives notice in writing to the Contracting Officer not more than six (6) years after the date of the release of the date of any notice to the Contractor that the Government is prepared to make final payment, whichever is earlier.

3. Claims for reimbursement of costs (other than expenses of the Contractor by reason of its indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of the said contract relating to patents.

The Contractor agrees, in connection with patent matters and with claims which are not released as set forth above, that it will comply with all of the provisions of the said contract, including without limitation those provisions relating to notification to the Contracting Officer and relating to the defense or prosecution of litigation.

SCHEDULE

1. The Contractor shall perform the studies and submit a final report thereon in accordance with Phase I of P and E Engineering Report No. "Revision A", dated 16 July 1965. Said report is incorporated into this task order by reference.
2. Anticipatory Costs: All costs which have been incurred by the Contractor on or after 20 September 1965 in anticipation of and prior to the signing of this Task Order No. 7 and which, if incurred after the signing of this Task Order would have been considered as allowable costs hereunder will be accepted as cost under this Task Order.
3. Contractor's standard commercial items used in the performance of this contract shall be supplied at fair and reasonable prices at which such items are normally sold to the U. S. Government. The estimated price of Contractor's standard commercial items to be used hereunder and indicated in Contractor's cost proposal has been excluded from estimated cost in negotiating the fixed-fee under this Task Order.

MEMORANDUM FOR: Chief, Contracts Division/OSA

SUBJECT : Follow-on Task with Perkin-Elmer Corporation,  
Norwalk, Conn.

1. The Office of Research and Development requests a follow-on task be negotiated for OXC-9244 Task No. 7. Contract No. CH-900 at Perkin-Elmer Corp. The proposed work, [REDACTED] 25X1D will cover a period of nine months at an estimated cost of \$1,400,157. The work will be a combination of applied research and engineering development. ORD will transfer the necessary funds as per the attached Form 1716.

2. In our memorandum to you, ORD-2310-65, dated 20 August 1965, we spelled out in some detail the reasons for requesting OSA to handle the contracts. These reasons are still valid and will not be repeated here. Since the initial study (Task No. 7) has indicated the feasibility of the program, the follow-on task will be to build a prototype instrument which can be tested in the laboratory.

3. The scope of the work to be accomplished is the construction of a prototype instrument as detailed in the attached proposal. Upon 25X1D the final testing of this instrument we will decide how best to complete the overall system by combining [REDACTED]

4. The contractor will deliver briefing aids, interim reports as required by the Project Officer, and a prototype instrument.

5. Association with the Agency will be classified SECRET. Reports will be classified SECRET unless otherwise directed by the Project Officer.

MEMORANDUM FOR: Chief, Contracts Division/OSA

SUBJECT : New Task with the Perkin-Elmer Corporation,  
Norwalk, Conn.

1. The Office of Research and Development requests a new task be negotiated with the subject firm. The proposed work, [REDACTED] with 25X1D cover a period of six months at an estimated cost of \$49,652. The work will be a combination of applied research and engineering development. ORD will transfer the necessary funds as per attached Form 1716. Phase I only is being purchased at this time.

2. This office is requesting that the contract be handled through OSA channels for several reasons. First, the idea originally came into OSA from Perkin-Elmer and was referred to us (see attached letter dated 11 February 1965). Secondly, if the proposed study proves the feasibility of the idea, [REDACTED]

25X1D  
25X1D  
25X1D

A final reason for this request is that the people at Perkin-Elmer who would work on this project are cleared through OSA channels, and we want to maintain the established security since we feel that the potential of this system for vital intelligence collection is very high. Perkin-Elmer was selected as the most appropriate contractor because they have a unique capability in the field of [REDACTED] both in the personnel available and past work in this field.

3. The scope of the work to be accomplished is a feasibility study as detailed in the attached proposal. At the end of this study we will be in a position to decide whether or not to go forward with a overall system development program.

4. The contractor will deliver briefing aids, a final report, and such interim reports as may be required by the Project Officer.

Dear [REDACTED]

Enclosed please find three copies of Revision A to the proposal titled [REDACTED] previously submitted to you. This revision is a result of your visit here during the latter part of June. This visit defined the problem more specifically and the desired phases of the program.

25X1D

The revised technical proposal has a little more technical input. It is significant that the allowed increase in sampling time will aid the predicted sensitivity.

The proposed program is now quoted in two phases. Phase I will be a study concerned with measurement techniques and instrument feasibility. The selling price for this is \$49.652 and the completion will be within six months. Phase II will be a breadboard design, development and test. The selling price for it (based on having completed Phase I) is \$118.096 and delivery would be within ten months of receipt of contract. In the event that Phase II is contracted separately, at a later date, it could be completed within six months of completion of the Phase I study.

The total selling price for Phase I and Phase II is \$167.748, on a cost-plus Fixed Fee basis.

Please call me on Area Code [REDACTED] if you require additional information.

25X1A

Sincerely

[REDACTED]  
Contract Administrator

MEMORANDUM FOR: Director of OSA

ATTENTION : [REDACTED]

SUBJECT : ORD Contract with Perkin-Elmer Corporation

25X1A

1. The purpose of this memorandum is to inform you that ORD/PC will not continue with Phase IIC of Contract CH-900, Task No. 7 with Perkin-Elmer Corporation as described in their current and previous proposals. Because a high-level policy decision has been made to terminate the [REDACTED] by January 1967, [REDACTED]

25X1D

[REDACTED] However, with a slight amount of additional work, the laboratory prototype instrument can be made into a useful instrument for another ORD contract. Therefore, in order to accomplish an orderly close-out of this contract and to provide funds to repackaging and ruggedize the laboratory prototype for field use on our other contract, we are requesting that you add \$7,483 to the present contract. These additional funds will be transferred to you as per paragraph 4 of this memorandum.

2. It is to be emphasized that this action by ORD/PC had nothing to do with the performance of the contractor. On the contrary, Perkin-Elmer Corporation and its personnel performed very well indeed. All portions of the system were working as predicted and exceeding the necessary detection levels.

Dear Jack:

25X1D  
Subject: Proposed Change/Extension in Scope of [REDACTED]  
[REDACTED] Project.  
Task No. 7  
Contract CH-900

25X1D

This proposed change is to confirm your direction under the subject task to package, ruggedize, and prepare the equipment for transfer to a different contract.

25X1D  
25X1D  
The [REDACTED] instrument will be ruggedized and packaged with an external cover. The main support base will be reinforced and [REDACTED] components permanently secured for a more rugged environment use. An external cover shall be provided and an operation instruction manual will be provided. The attached cost breakdown details the additional cost, and the performance time is to be extended by one month, from 31 January 1967 to 28 February 1967.

Based upon your request to make the above change, it is our understanding that our proposal for Phase IIC dated 26 October 1966, File MW-M-1579, will not be funded.

We look forward to an early conversion of this proposal.

Regards,

*Gus*
